ASEAN – China Free Trade Area (ACFTA) - Form E

ASEAN Comprises of follow 10 Nationa : Brunei Darussalam , Cambodia , Indonesia , Lao PDR , Malaysia , Myanmar , Philippines, Singapore, Thailand, Vietnam

Key Benefits

Tariff elimination for 94.6% of all tariff lines for Singapore's originating exports to China.

Allows for back-to-back shipment of goods within member countries: ACFTA originating goods brought into Singapore from ASEAN countries or China and are re-exported within these countries, without any processing in Singapore, can enjoy tariff concessions. Originating products passing through Parties can also retain their originating status.

Allows for third-party invoicing of goods.: Customs authorities in the importing country may accept a Certificate of Origin when the sales invoice is issued from a different country or company exporting the originating goods in various sectors, provided that the good meets the necessary requirements. This invoice can come from countries that are not Parties to this Agreement.

Allows for Regional Cumulation:.. Originating raw materials sourced from other ASEAN Member States and China can be taken into account when assessing the origin criteria of final products manufactured in Singapore. This makes it easier for Singapore exporters' products to meet the criteria for preferential treatment.

Enhanced Product Specific Rules of Origin (PSRs) are more liberal, flexible and business friendly, and allow businesses to qualify for the benefits under the ACFTA more easily.

Safeguards market access and ensures a more predictable operating environment for service suppliers.

Greater market access and improved foreign equity thresholds in six of China's services sectors.

Protection for investors and investments in ASEAN and China. This creates a more transparent, facilitative, and secure environment for investors.

Expanded Economic Cooperation and Technical Cooperation provisions relating to information sharing and capacity building allow Singapore's Micro, Small and Medium Enterprises (MSMEs) to enhance their capabilities.
